# Pirelli – VW Golf – 205/55 R16 A/S – 20CPCEXT-181-C Timing

- Date of the test : Monday 18th of January 2021
- Track : Idiada – Barcelona - Spain.
- Type of test : Comparative dry braking

# Pirelli – VW Golf – 205/55 R16 A/S – 20CPCEXT-181-C Staff

- 1 Engineer performing dry braking .
- 2 tire fitters to mount the tires and to perform tires change during the test.

## Pirelli – VW Golf – 205 / 55 R16 A/S – 20CPCEXT-181-C Equipment

- Air and track temperature sensor.
- 1 Racelogic Vbox 100 Hz to measure braking distance.
- Wind speed follow up.
- 1 lift.
- 1 vehicle VW Golf 5 doors with Engine 1.5L TSI 150 HP with automatic gearbox.
- Vehicle's load : 1 driver
- Breaking in of all tires for 100 km at 80 kph with 1 driver + 1 passenger RF + 2 passengers and 40 Kg rear.
- During the test, the driver does not know which tires are mounted on the vehicle.

## Pirelli – VW Golf – 205/55 R16 A/S – 20CPCEXT-181-C Tire List

PIRELLI	Cinturato All Season SF2	205/55 R16 94V	DOT 1XHB K104L 4820
BRIDGESTONE	Weather Control A005 Evo	205/55 R16 94V	DOT VR8K V4J 4520
GOODYEAR	Vector 4 Seasons Gen 3	205/55 R16 94V	DOT A50F YF1R 4220
MICHELIN	CrossClimate +	205/55 R16 94V	DOT HCWC 0JYX 2720

Tires have been provided by PIRELLI

# Pirelli – VW Golf – 205/55 R16 A/S – 20CPCEXT-181-C – Braking Test protocol

## Type of test :

- Dry braking distance measurement : from 100 to 10 kph, start of braking at 105 kph + 3 kph
- Surface : dry asphalt
- Tire Pressure :
  - Front : 2,4 bar.
  - Rear : 2,4 bar.

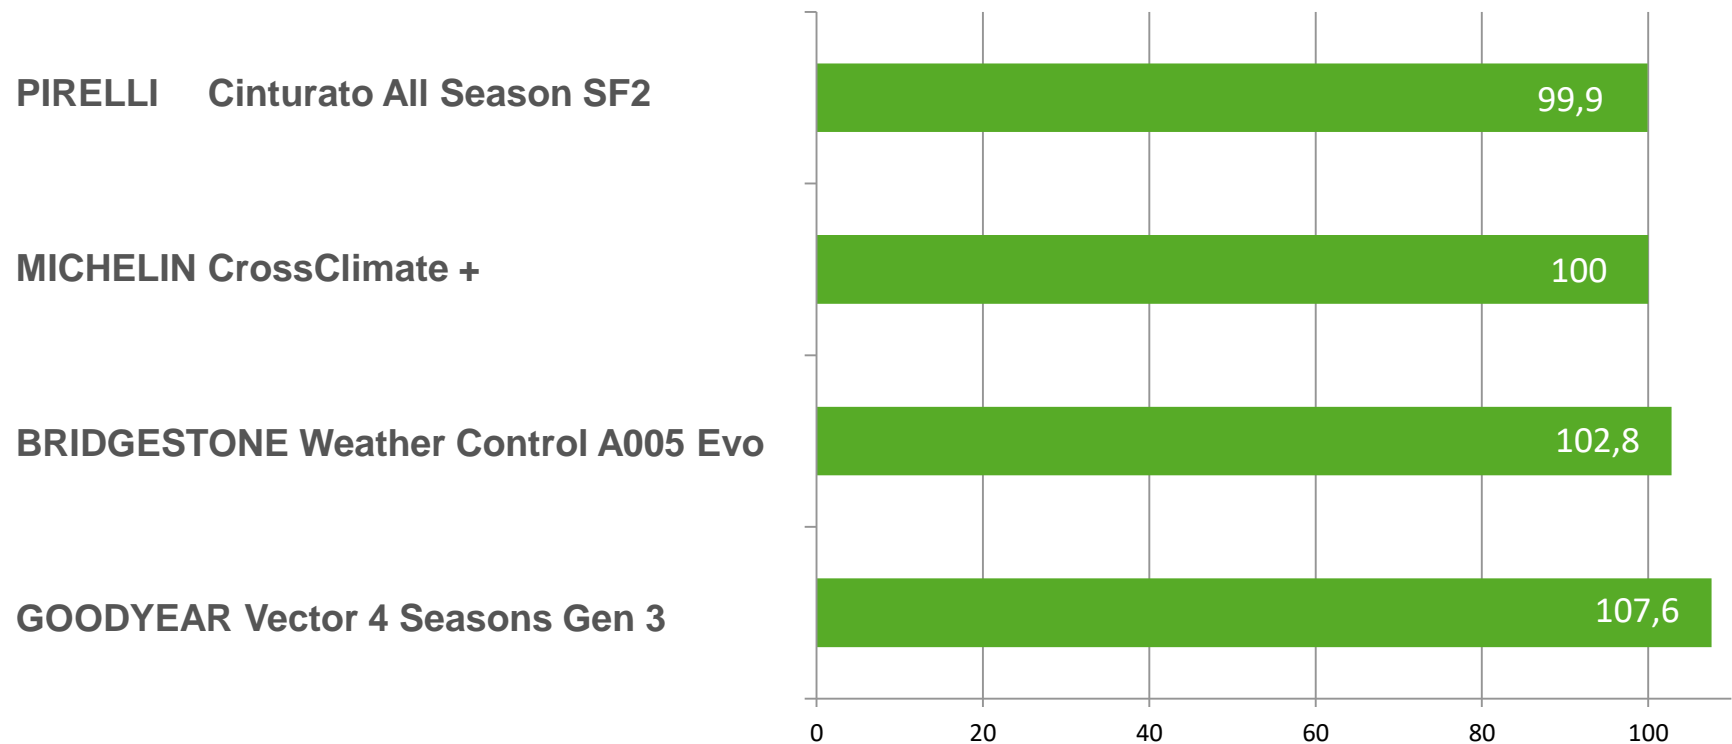

## Pirelli – VW Golf – 205/55 R16 A/S – 20CPCEXT-181-C – Braking Test conditions

- Number of dry braking : 3 performed, 2 are validated for the test.
- Temperature :
  - Air : between 14,4° and 8,1 °C
  - Dry track : between 8,4° and 11,8 °C
- Wind speed :
  - 100 % of time with wind speed less than 1 m/s.
- Tire set validation :
  - Dry braking standard deviation less than 0,7 %. Difference mini/maxi : 0,5 meter

-

# Pirelli – VW Golf – 205/55 R16 A/S – 20CPCEXT-181-C – Braking Results – Dry braking

## Dry braking distance (%) - 100 - 10 kph

Min / max traction distance's difference between the best and worst : 2,77 meters
